

The background of the image is a light-colored, possibly white or off-white, surface that is heavily cracked and peeling. The cracks are irregular and form a network across the entire area. There are several dark, brownish spots where the surface has chipped away, revealing a darker material underneath. The overall appearance is that of old, weathered, or dried-out material.

Whose story

**Wenn die Quellen
verstummen**

**Nur die Steine
noch zeugen**

Wessen Geschichte?
